

2023-24

COVID Guidance

For students and staff...

As we start the new school year, we want to continue to minimize disruption and absenteeism due to COVID.

Symptomatic?

- If you have symptoms, **STAY HOME**, rest and recover.
- Test yourself to determine if your illness is COVID

Exposed?

- It is recommended that you test 3-5 days after the suspected exposure and monitor yourself for symptoms.
- Unless you are symptomatic or test positive, you are still allowed to be on campus.

If you test positive

- Stay home for at least 5 days from symptom onset
- Return to school on or after day 6 when you are fever-free for 24 hours **AND** your symptoms are improving
- Individuals should wear a mask around others for a total of 10 days

The school will provide at-home test kits for students, families, and staff upon request.

The school will provide face masks for students and staff upon request.

Take general precautions to help prevent respiratory illnesses

Hand hygiene, respiratory etiquette, good ventilation and staying home when sick go a long way to prevent the spread of disease
