### School During a Pandemic

Have you ever wondered what going to school during a pandemic is like? Well I do. I was sitting at the dinner table drawing pictures when my mom came and told me that I was going to go back to school. I was so excited I screamed “YES.” I couldn't wait to go back to school. But little did I know that this year would be much different than the last.

First, this school year at Greenville Learning Center was going to be very interesting. We would have to wear masks, put on hand sanitizer, stay six feet apart, and get our temperature checked before we walked in the door every day. We went shopping for school supplies right away. We got masks, hand sanitizer, pencils, note books, binders, and some other things. We went shopping in Reno, Nevada at Target, Costco and other stores. We also did some clothes shopping at Osh Kosh B'gosh and Carters. I got some nice dresses, stretch pants, and a few T-Shirts. I had everything I needed to start the school year.

Now that we're going back to school I realize that the pandemic is dreadful. You can't touch anybody or play tag or any fun games. This pandemic has had some good things and bad things about it. One good thing is we get to have onsite learning. Since this pandemic started it has made it difficult for schools to stay open; eventually making them shut down. Now schools are able to reopen at last but we do have to wear masks. Masks are very uncomfortable, they make your face sweaty and hot. They are also hard to breath in.

Looking back, we have been through a lot but it wasn't that bad. Next year, I hope we won't have to wear masks at school, can be closer than 6 feet apart and play tag. I will always remember my pandemic school year of 2020-2021.
