What School Was Like in a Face Mask

Have you ever wondered what school would be like in a face mask? There I was, in my house classroom doing my homework when my mom walked in and said, “You’re going back to school!” I got so excited I could not feel my feet hurt so bad because I jumped too high and hard.

On the first day I knew that this school year at Greenville Learning Center was going to be different from last year. I had to wear a mask, stay 6 feet away from everyone, only attend school two days a week, and the awful thought of having to complete most of my homework online. Knowing this school year was not going to be easy, I would do anything to be in the classroom and not have to be homeschooled.

After a few months it was really hard for me to get used to a “new normal”. Since this was the first time I had to wear a mask, these new rules were really hard for me because my mask hurt my ears and nose. Plus it was really gross after I ate as I could smell my breath everytime I exhaled

- Even though the school year was different and difficult, I adapted. Next year, I hope that I get to have a normal 6th grade year, where we get to participate in all the fun outdoors activities that you get to have in 6th grade.
